

1899. The Rejected Die.Type Sheet of Issue.? Printed by Mess^{rs} Giesecke & Devrient of Leipzig?No Watermark. Perforated 14.

Three values of this series, which had been rejected by the King, were inadvertently put on sale in small quantities in the Eastern part of Siam and the Siamese Peninsula towards the end of the year 1899.

Subsequently all three values were cancelled "to order" in blocks with a Korat date stamp, probably in sheets, and two other values, 4 Alts and 10 Alts, which have not up to the present been found genuinely used, and are believed never to have been issued, were similarly postmarked and put on sale at the same time.
